

AC/DC, Money Shot

Feeling the rock'n roll mood
Gonna make you feel good
Might be a little dangerous

I believe, I believe
You will see
It could be
Contagious

Doctor, what's the antidote?
Lady, try the money shot
Doctor, what's the antidote?
Lady, just try the money shot
Best taken when hot

I got a good prescription
For the state of your condition
You gotta take it three times a day
Or as much, or as much as you may
That's my diagnosis

Doctor, what's the antidote?
Lady, try the money shot
Doctor, what's the antidote?
Lady, try the money shot

Try the money shot
Hey

Oh
Now take this down
Gonna send you on your way
'Cause I believe I've solved your case
I'll give you your relief

Doctor, what's the antidote?
Lady, try the money shot
Doctor, what's the antidote?
Lady, try the money shot

We got a good cure for what ails ya
It won't fail ya
Try the money shot

Doctor, show me the antidote
I'd try the money shot
I'd try the money shot
Ooh, ooh
