

# AC/DC, Realize

The moment you realize  
Those moments just pass you by  
Gonna take you paradise

Move it  
Make you prove it  
Breakin' out  
Break it down  
Feel the chill  
Feel the chill  
Movin' down your spine

When we recall and realize  
Make you realize

I've got the power to hypnotize  
Make a play  
Mesmerize  
Feel te chill up  
And down your spine  
I am gonna meke you fly
