## Accept, Break the ice

Day after day

I'm beginning to realize

The torture and pain

Are we going insane

Our vibrations

May be the push we need

We're restless at heart burnin' inside

Throwing it all away

There's a message in our life

It makes me wonder why

There's a vibe we can't deny

That's why we must

Break the ice - leave all the rest behind

Break the ice - and try in a way to hold on and stay

Break the ice - we know we can't deny

Break the ice - by taking the chance we're breakin' away

We gotta follow the lead

It's all part of the give and take

Where anything goes

Our spirits will shine

I won't be long

Before we realize

That we've given in

To the power of love - yes we do

There's a message in our life

It makes me wonder why

There's a vibe we can't deny

That's why we must

Break the ice - leave all the rest behind

Break the ice - we're throwing away what more can I say

Break the ice - leave it all behind

Break the ice

It doesn't help to cry

No need to wonder why

We hold it all in hand

Needless to say - needless to say

Break the ice - ice

We must

Break the ice - leave all the rest behind

Break the ice - and try in our way to hold on and stay

We must

Break the ice - we know we can't deny

Break the ice - by takin' a chance we're breaking away

Break the ice
