Accept, Flash Rockin' Man

They all know your name
They know you're a star
You've been around for ever
And you know who you are
They buy all your records
They come to the gigs
They wanna see you rock 'n' roll
Your life is full of action
Your life is full of sound
A Rock 'n' Roll magic man
Stamp your feet big man in town
You know you're an idol
The leader of the gang
A juvenile's hero
Turn on the lights
There's no end in sight
Flash rockin' man
Flash rockin' man
They wanna feel your volume
They wanna live your life
They wanna be like you
Every day and every night
You're walking down the alleys
You're a famous man
Immortal so damn holy
Turn on the lights
Show us tonight, yes tonight
Flash rockin' man
Flash rockin' man
You've been behind the scenes
And the fools laughed so loud
You are a well known man
But alone in the crowd
Tormented and mistreated
Deal everyday
A servant of the yes men
If the people knew what would they say
You know what it's like
So turn off the lights
Flash rockin' man
Flash rockin' man
Flash rockin' man
Flash rockin' man
