

Accidental Superhero, Way Down

stop me on the way down
stop me on the way down

can't stand my ground with you
reach up or drown for you
would have liked to know what to do
feel like i've blown it with you

stop me on the way down
stop me on the way down

can't stop to lie for you
won't stand this strife from you
could have loved the things that i do
can't spend my time waiting for you

stop me on the way down
stop me on the way down

back up give up or funk the fight
lock the door give up and hit the lights

stop me on the way down
stop me on the way down
