

According To John, God Thing

I'm not real sure just what happened
I was on the floor Crying out in desperation
And the next thing I remember
The heaviest load Had been lifted from my shoulders

Pre-Chorus:
And I was tired of trying
Sick of feeling
Like I was dying

Chorus:
It was a God Thing
Can't explain it
Just like a freight train
Can't slow it down
It was a God Thing
Can't contain it
Sure of one thing
That I'm changing
What else can I say
It was a God Thing

Verse2:
When you're staring at your ceiling
No more disguise
Just you and the one you're needing
Then there's a feeling that you're drowning
Just hold out your heart
On the water someone's walking

Bridge:
Well I might not know the words
Don't know chapter - don't know verse
But I know that I know that I know
