

# According To John, High And Mighty

You and I, We are here for now  
But someday we'll be gone  
Like the flowers and the grass  
And every melody of every song  
I see the midnight sky and I  
Wonder why I'm on the mind of one  
Higher than I

He's High and Mighty - A Strong Tower  
I am sheltered by his power  
He is ever standing by my side.  
Rulers rise they fall and die  
But by and by I'll hide behind  
The only - High and Mighty  
No mountain high we see boasting  
Proudly in the sky  
Will dare refuse to glorify  
I see the midnight sky and I  
Wonder Lord just who am I  
That I am on your Mind...
