

Ace Frehley, A Little Below The Angels

Alcohol was a friend of mine, it almost got me dead.
I crashed some cars got into fights, some things I now regret.□
I've been told I've got nine lives, or maybe even ten.
Now I've changed my ways, my soul's restored I'm better now than then.
We're just a little below, a little lower than the angels.
And that's all right. That's all right with me.
Tempted fate is not what I wanted to I'd soon enough be dead. And All that glitter
is it always gold? You know I've heard it said.
I've taken changes across the line I lost my faith in love. Now the road is clear, my aim is true. With
We're just a little below
a little lower than the angels.
And that's all right. That's all right with me.
We're just a little below
a little lower than the angels.
And I can't fly, I won't fly away.
You know I won't fly away.
We gotta find our own way.
Well I don't know If I'll make it to heaven, just open the gates of hell
Laidida daidadi daida
Daddy have you ever seen an Angel?
Sure baby!
Well, what was it like?
The most beautiful thing I've ever seen
Just a little below, a little lower than the angels
and that's all right, its all right with me
We're just a little below, a little lower than the angels.
And I can't fly I won't fly away
We're just a little below, a little lower than the angels.
And that's all right, That's all right with me.
And I can't fly I won't fly away
We're just a little below, a little lower than the angels.
And that's all right with me.
