

# Ace Frehley, Back To School

Hot summer's gone and you're still ready to burn  
Back from vacation and you're eager to learn  
Anticipation mixed with desire  
No one can stop you 'cause you're heart's on fire

Back, back to school  
I'll teach you all the things that you never knew  
You're going back, back to school  
I'll give you everything and you know it's true  
'cause it's back to school for you

Now I'm the teacher, but I have no degree  
Forget the rest I'll teach you biology  
Now just relax and you'll do your best  
Concentrate and you'll pass the test

I'll be your teacher and you'll be my pet  
Put down your notebook  
'cause there's no written test  
Graduation is what you deserve  
You'll have no problem  
'cause I grade on a curve

You're goin' back, back to school  
You're goin' back, back to school  
You're goin' back, back to school

You're goin' back!  
You're goin' back, back to school
