

Ace Frehley, Outer Space

You said you wanted my love
To be your party your gain
But when I came from above
I looked around but you turned away
And now you are scratching and crawling
Your way up from the grave
You should have stayed in the dirt girl
Just like I told you
Just like a told you
I came from outer space
That's how I know your name
Just like a told you
I cam from outer space
I wanna take you away
You took a drink of my sweet love
And then the poison tuck
