

Ace Of Base, Adventures in paradise

We wanna be alone tonight
'til early in the morning light
out in the open you are here
adventures in paradise
We wanna be alone tonight
'til early in the morning light
exploring what the nature brings
adventures in paradise
adventures in paradise
oh give me what I need tonight
oh you know what I want tonight
oh give me what I need tonight
adventures in paradise
We wanna be alone tonight
'til early in the morning light
exploring what the nature brings
adventures in paradise
adventures in paradise
oh give me what I need tonight
oh you know what I want tonight
oh give me what I need tonight
adventures in paradise
oh give me what I need tonight
oh you know what I want tonight
oh give me what I need tonight
adventures in paradise
when the moon is at its height
and nobody is in sight
we're hiding from the world we used to like
and will stories then be told
of what we did here tonight
you will always be my number one
oh give me what I need tonight
oh you know what I want tonight
oh give me what I need tonight
adventures in paradise
oh give me what I need tonight (give me what I need tonight)
oh you know what I want tonight (cuz you know what I need tonight)
oh give me what I need tonight (give me what I need tonight)
adventures in paradise
oh give me what I need tonight
oh you know what I want tonight
oh give me what I need tonight
adventures in paradise
oh give me what I need tonight (give me what I need tonight)
oh you know what I want tonight (cuz you know what I need tonight)
oh give me what I need tonight (give me what I need tonight)
