

Ace Of Base, Don't Go Away

One step hesitation
One step into the night
Don't mind the weather
It's raining in my heart tonight

Much more to living
Two wrongs don't make a right
You're gonna regret it
When you're looking back
On your life

Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you wanna be, hmm
But don't go away

Some dream of fortune
Others dream of fame
Seconds after leaving
Life'll never be the same

Fell for temptation
It didn't mean a thing
We'll last forever
If you turn around
Once again

Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you wanna be, hmm
But don't go away

Do you wanna be more than a picture hanging on the wall
Something to remind me of how it all went wrong
Do you wanna be more than a number forgotten in a book
You're holding something special, so take another look

You're gonna regret it
When you're looking back
On your life

Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you wanna be, hmm
But don't go away

Take a look
Take another look on your way
Take a look
Take another look on your way

Please don't go...
