

# Ace Of Base, Edge Of Heaven

Fire! I can see it burning so brightly  
Fire! I can see it calling out to me

And as the sun goes down  
It starts to paint a picture  
Of an ancient town  
So far away, across the endless sea

Lead me to the light  
And take me to the edge of heaven  
I'm standing in the night  
Looking for the edge of heaven  
We'll be touching the edge of heaven

Time  
Close your eyes see dreams of tomorrow  
Time  
The wheels are turning 'till eternity

And as the darkness comes  
I start to see a picture  
Of a lonely man  
So clearly now reaching out for me

Lead me to the light...

And sail the endless sea  
So lead me to the light  
And take me to the edge of heaven

The edge of heaven is near  
We'll sail the endless sea
