

Ace Troubleshooter, Don't Trust That Girl

You know that kind of girl that makes your heart beat all fast?
You know that kind of love that you know will last?
I knew that kind of girl, I knew that kind of love
But then she broke it off when I was so sure of her

Don't trust that girl
She's up to no good
She'll mess with you like no one should

Empty promises thrown into the wind
Mirage vanishes, never to see again
Hey fellas, be you ware, don't want to end up like me
Another victim of her stupid female schemes

And so the time moves on with feelings come and gone
And Christ is the one constant I can lean on
So now I am left here feeling like a schmuck
With one thought on my mind:
[speaking:] Girls suck

Don't trust that girl
She's up to no good
She'll mess with you like no one should
Don't trust that girl
She's up to no good
She'll mess with you like no one should
[speaking:] Women. Can't live with 'em, can't shoot 'em
