

Ace Troubleshooter, Tonight

Starry, starry night
The silver beams the only light
Summer breeze, summer dreams
Float over me
The stars frame her silhouette
Beauty steals away my breath
The moment will last forever
Forever, forever

There is no time but now
There is nowhere else but here

Time has lost its grip tonight
Beautiful enchantment
I just might hold her, hold her close
Never let her go
The tenderness in her eyes
Her hair is drenched with silver moonlight
Half-spoken thoughts
Forget-me-nots
She's the jewel I've sought

There is no time but now
There is nowhere else but here
When all else is cold
The warmth of holding her near

Tonight the stars in her eyes
Outshine the stars in the sky
Tonight love is in her eyes
I'll hold, hold her close tonight
