

Acel Bisa, Together

I can give you flowers
If you want me to
I can cry with your tears like the rain anyday
I can float above your thoughts
Hoping I won't drown you
With my whispers that won't grow cold
You're my desire
Hold my hand now
You're my desire
Hold my hand now
As we take this flight
Together...
You soothe me like a baby's hand
When you touch my face
Like a gentle breeze that sweeps my hair
With such grace
Swim with me
Just lead the way
As we cross the times
Crossing the land where we'll be together
Together
Now kiss me sweet
As our souls unite
For the one... for the one who made this
Beautiful night
Together.
Together forever
