

Aceyalone, Future Rockers

[uncredited spoken word poet forms the song's intro]

And his quick observation and active brain
made him an ideal agent for gaining information.

[Aceyalone]

People all over the world
They have a right to be free

No matter where you are at

You are in the place to be

I think you should walk to the park
And stand up right next to a tree

Look down at the roots on the ground

And imagine you're standin with me

An apple might fall on yo' head

And you may get a bright idea

That you do not want to be led

You'll climb on your own up that hill

But when you get up to the top

Just don't forget from where you came

Cause you know that it doesn't stop
And you know the name of the game

[Chorus]

Future future, future future

Rockers rockers, rockers rockers

Future future, future future

Rockers rockers, rockers rockers

[Aceyalone]

I had the pleasure of finding this treasure
And taking the measure to keep it protected
Jewels are a snake that can be in the wrong hands

That could be deadly we MUST take a stance

Walking on tightropes in thin ice and hot coals

And dancing with demons, and playing the role

Stay in control and don't let them control you

Cause I know they will, if you have no will

That's one of the reasons I came to this planet

To give you some lessons on you being you
It must be us that must enter those gates and
We must know just what to do

[Chorus]

[Aceyalone]

First I grab my, weapon then I

Ready and willin and deadly and makin a killin
Put it away just in case there's foul play
A to the L, on to the E

As you can tell, I'm the MC
of the century and of the future

When I execute ya, you'll feel no pain
But you will when you'll be born again and again
Ev-ery seven or eight thousand years

The brain becomes one with the ears
Man becomes one with the sneers

The flesh becomes one with the gears

The circuitry's working, electronic pulse

I am the host so a toast to the boogie

Future future.. rockers rockers

Future future.. rockers rockers

Future future..

Rockers rockers..
Future future..

Rockers rockers
