

Acid Android, Imagining Noises

The whispers in my ear is proving i'm here
all will disappear if noises just stop
what i vision is it fake or for real?
the others see what i see?
Grasp and feel
sense and reveal
i am real
Authorize and recognize
I am real
Am i imagining noises only in my head?
can you hear what i hear?
the whispers...the whispers...the whispers...
prove that i'm here ...
