

Acid Black Cherry, Sleeping Beauty (Nemuri Hime)

I grew a little stronger with every smile you gave
Smile for me once more
Hey, your long eyelashes and hair are beautiful
Hey, I love your dimples and teeth when you smile
Hey, I want to touch the heart lying deep within your tender eyes
Hey, even now, I still want to know why you cried that day
Let me hear your voice a little show me what you see
I grew a little stronger with every smile you gave
I loved the joyful look on your face every time I said, I love you
Someday, when were reborn a miracle might happen
We could meet again, but being with you now means more to me
Smile for me once more
Hey, its smelling like the sun so Ill open the window a little
Hey, I cant do anything for you but Ill never let go of your hand
Can you hear me? Im here can you feel it? Im right beside you
I grew a little stronger with every smile you gave
This time I want to be the one who makes your smile blossom
With the words we loved the most
I shouldnt show any tears every time I say, I love you
Well take our time
I grew a little stronger with your smile
Ill always take your hand and tell you, I love you, I love you, I love you
Smile for me once more
Hey, your long eyelashes and hair are beautiful
Hey, I could see you smile a little as the soft wind curled around you
Let me hear your voice a little let me hear your voice a little
