

# Acid Death, Teach To Kill

(music: Dennis, Costas lyrics: Jake)

"Sanity and insanity come together-don't forget  
Here we found the way to get it"

Welcome to the Model Death's High-school  
You speak with its General Director  
It's our pleasure to have you here in our favorite Killer Family

Justice means death of body and soul  
You will surly learn it here  
We'll make you comprehend it for sure  
To practice it perfectly

You'll see a lot-you will hear a lot more  
You have to believe them all-so simply  
But it will cost your life if you try to convert'em  
To convert'em out there

Your actual thoughts? Just hide'em inside you  
Sense of love has no place in here  
Everything that's lovely has to die now  
And this is your own duty.

(chorus)  
Sanity and insanity come together-don't forget  
Here we found the way to get it  
You'll get it too and you'll love it!

Don't hesitate to practice even here  
Everything you've taught  
Just try to make some practice on me  
But remember I'll survive!!!

With these few words I welcome you  
I discriminate the terror in your eyes-but you've already got in

The doors behind you closed hermetically  
Opened when you will become our own perfection:
