

# Acid House Kings, That's Because You Drive Me

Looking for your face  
In the bathroom mirror  
Looking for your name  
On the front door sign

Call me insane  
That's because you drive me

That first summer  
Without postcard traces  
That first week  
Standing by the phone

Call me insane  
That's because you drive me

It takes a lot of walking  
To get to know you  
It takes a lot of talking  
To see through you  
It takes a lot of walking by your side

I've kept our room  
In perfect order  
I've kept your keys  
Where you left them

Call me insane  
That's because you drive me

That last goodbye  
Still know how you phrased it  
That last look  
I still felt love  
Call me insane  
That's because you drive me

It takes a lot of walking  
To get to know you  
It takes a lot of talking  
To see through you  
It takes a lot of walking by your side
