

# Acroma, On That Day

On that day I finally saw it through wide open eyes  
And on that day another autumn day I saw the lies  
And I said stop, cause I can't breathe  
Let me take away the blinding light  
And I said stop, I can't breathe  
Got to find my way out of this circus ring reality now

And I can't wait to shut it out tonight  
And I can't wait to leave this all behind  
And timelines blur the faces everything and all  
And in the meantime I'll just fall

On that day I finally saw it through wide open eyes  
On that day I lost the sweet denial and saw the lies  
And I said stop, cause I can't breathe  
Got to find my way out of this circus ring reality now

And I can't wait to shut it out tonight  
And I can't wait to leave this all behind  
And timelines blur the faces everything and all  
And in the meantime I'll just fall

Let me know how to deal with screaming here in silence slowly drowning  
I'm slowly drowning  
Maybe I'll just take my pills that take away the laughter pain and all  
Take it away it all  
Please make me feel alive and real and take away this need  
And take these dreams that hold me down now

And I can't wait to shut it out tonight  
And I can't wait to leave this all behind  
And timelines blur the faces everything and all  
And in my own time I will fall  
In my own time I might fall  
In my own time I will fall
