

# Action Reaction, Have A Cocktail

I feel so convoluted  
Check my pressure, have a cocktail  
Please sir, have a drink, it's on the house  
And the boy will eat the cinema  
The boy will eat it all, and then some more  
And then some more  
I feel so convoluted  
Check my pressure, have a cocktail  
Oh have a drink, it's on the house  
And the boy will eat the cinema  
The boy will eat it all, and then some more  
And then some more  
So everybody come back from the dead  
So you can teach us what you fought for then  
And I hope we're wrong, yes, I hope we're wrong  
And I'm all done with mirrors  
Scary, can't see my reflection  
And can you touch me can you taste me  
As I ride upon the master  
And I can't fade much faster  
There I go and then some more  
So everybody come back from the dead  
So you can teach us what you fought for then  
And I hope we're wrong, yes, I hope we're wrong  
And if the world could only be mine  
If the world could only be mine  
I'd slow it down to half-speed  
And take some time to breathe  
And delight in love  
But we rake them coals of hatred  
As we divide the nation alone instead  
And if the world could only be mine  
Everybody come back from the dead  
So you can teach us what you fought for then  
And I hope we're wrong, yeah, I hope we're wrong  
So everybody come back from the dead  
So you can teach us what you fought for then  
And I hope we're wrong, yeah, I hope we're wrong  
If the world could only be mine
