

# Activ, Reasons

You left me in the mornin'

You left me in the mornin'  
And took my dreams away  
I need you in my arms  
Every hour every day

Only for a moment  
I am so confused  
But soon you'll be home  
Together me and you

I've got so many reasons to stay with you  
I've got so many reasons to follow you  
I've got so many reasons to be with you  
What you wanna do, do you want me to?

My heart is beatin' faster  
When you touch ma' skin  
I feel all your love  
I know this is a sin

I wake up in the mornin'  
Open up my eyes  
I am all alone  
I got you by my side

I've got so many reasons to stay with you  
I've got so many reasons to follow you  
I've got so many reasons to be with you  
What you wanna do, do you want me to?

I've got so many reasons to stay with you  
I've got so many reasons to follow you  
I've got so many reasons to be with you  
What you wanna do, do you want me to?

I've got so many reasons to stay with you  
...  
I've got so many reasons to follow you  
...  
I've got so many reasons to be with you  
...  
What you wanna do, do you want me to  
Do you want me to?  
...
