

# Acumen Nation, Black Son Hole

yeah! and you'll say...  
from the streets this what's goin' on...  
devastation equation -- information for the..  
devastation equation -- information for the..  
devastation equation -- information for the crack-nation..

urban terror craze, ghetto fever all too clear  
these are crossfire days, so just cheer on the violence  
lead your target, aim, try to fabricate the streets  
you know the currency flow, if the pigment fits!

i bought myself some stock! in a blacker skin  
needle's getting hot, so i'm cashin' in!  
as long as our prison bars are regulation thick  
i can add to my urban sounds collection

the pacification of insurgent behavior  
lies within this dirty greed  
i couldn't believe your rivers dried up that fast

well every player knows  
the ins and outs of his bitches and hos  
true life looks better as thug life  
ask tommy and remy and sean john  
rock the bells as a fool's pawn  
suck the hood of its cred and then you long gone  
off tracking your rhymes up in the gilded hills  
(while another baby brother's generation is killed)

the pacification of insurgent behavior  
lies within this dirty greed  
i couldn't believe your rivers dried up that fast  
the autobiographical pain that you paid for  
in the sum of all your selves  
fattens the white wal-lets while  
your race is -- bleeding out

i bought myself some stock in a.. blacker skin  
needle's getting hot so i'm.. cashin' in!  
as long as our prison bars are regulation thick  
i can add to my.. urban sounds collection  
but there's something you should KNOW!  
something you should know...

the pacification of insurgent behavior  
lies within this dirty greed  
i couldn't believe your rivers dried up that fast  
the autobiographical pain that you paid for  
in the sum of all your selves  
fattens the white wal-lets while  
your race is -- bleeding out  
bleeding out!..
