

# Acumen Nation, Chameleon Skin

simplified, she is once trampled  
it will survive, not a question  
inside from time to time to time  
shit matters, what's the matter  
leaves of color leaves the system  
cold and plastic, never you mind  
this communion, only to drift away in vein

divide, divide, among the hive  
survive, survive, and cut across the land  
with sharper knives.. sharper knives.. sharper knives...

kiss this chameleon skin -- dig it, love it, suck it in  
fact or fiction, it is clear -- you soon become  
what you fear  
kiss this chameleon skin -- dig it, love it, suck it in  
fact or fiction, it is clear -- you soon become  
what you fear

polishing facial muscles clay  
splicing tomorrow blood today  
peeling the painted surface down  
rebuild the frown, rebuild the frown  
tickle finger, cripple the birds of prey  
prey, it don't decay  
washing the lines of sacrifice  
yourself, despite your selfish manner  
chameleon skin, begin again

divide, divide, among, among the hive  
survive, survive, and cut across the land  
with sharper knives

suck up all the juice you can  
suck up all the pain you can  
suck up all the juice you can  
suck up everything i am

chameleon skin, beloved affection  
turn out from within, now she's this infection  
this infection.. this infection.. this infection...

kiss this chameleon skin -- dig it, love it, suck it in  
fact or fiction, it is clear -- you soon become  
what you fear

what you fear  
kiss this chameleon skin -- dig it, love it, suck it in

what you fear  
you soon become what you fear
