

Acumen Nation, Metard

adrift the snowman regurgitates
astride her lapdance she hesitates
askew freak show, it's the only love i know
bull god the riff raff in synogogue
space storms are ruining my day out
krush groove was so weak
give me.. breakin 2 or beat street

so i'm thinking that it's over between us
when i notice that you're bleeding out the gearshaft
now is the not the best time for dreaming
as i smash apart

i'm my only friend again i'm crazy
it's a fact worth knowing if you're
someone, trying to care for me

now my last one was a dress rehearsal
new life, old juice, it's awful
take a bite but just pull the stick out
crop circles and my organs dug out
practicing my tourettes in the mirror
and spitting on the steps of the nursery
clean sheets and bad dreams awaiting
my nightly mess in the rem sleep

don't you think that it's kind of sexy
to be so empty and retarded
don't you think that it's kind of sexy
oh my god...

i'm my only friend again i'm crazy
it's a fact worth knowing if you're
someone, trying to care for me

taste the grease now...
taste the grease now...
taste the grease now...
taste the grease now... hahahahahahaa!

i'm my only friend again i'm crazy
got a choice i could make, but i'm lazy
it's a fact worth knowing if you're
someone, trying to care for me

you know that i would never even hurt a fly
you know that i would never even hurt a fly
but i'll take the window seven stories high
you know that i would never even hurt a fly
but i'll take the window seven stories high
to meet you six feet down...
you know that i would never even hurt a fly
but i'll take the window seven stories high
to meet you six feet down...
you know that i would never even hurt a fly
but i'll take the window seven stories high
to meet you six feet down...
meet you six feet down...
meet you six feet down...
