the gun in your back is a gat, and if you move
i'll blow your brains through your hat
the gun in your back is a gat, and if you move
i'll blow your brains through your hat
i said the gun in your back is a gat and if you move
i'll blow your brains through your hat
the gun in your back is a gat and if you move..
motha fucka, UNGH!.. yeah

and if you give me half a chance i'll drag you down
and leave you lying there with no arms.. and no legs
and if you give me half a chance i'll drag you down
and leave you lying there with no arms.. and no legs

because i love you, but i'd kill you
cuz you're human, and i hate you

and if you give me half a chance i'll drag you down
and leave you lying there with no arms..
and i won't see no legs
and if you give me half a chance i'll drag you down
and leave you lying there with no arms.. and no legs
and if the phone is ringing and you can't reach out
you can't get up can't get up can't get up with no arms
and no legs and no arms and no legs
and if your baby is crying on the floor
you can't get up with no arms
you can't get up with no legs

because i love you, but i'd kill you
cuz you're human, and i hate you.....

.....??
you ain't got the balls to be a hero
especially you and i'll cut off your arms
cut off your arms, cut off your arms, cut off your arms
i said you ain't got the balls to be a hero
especially you and i'll cut off your arms
cut off your arms!
and if you give me half a chance i'll drag you down
and leave you lying there with no arms.. and no legs
and if you give me half a chance i'll drag you down
and leave you lying there with no arms.. and no legs
