

# Acumen Nation, Rally & Sustain

feels like acetylene forces in the heat  
are making my insides disintegrate  
kind of like the first time i ever felt the beating  
of a lynch mob bent on evil intent  
entire unleashed fire could never repeat  
the rage of a funeral family  
all of this i am

( danger in the blood stream  
murder in the blood stream  
justice in the blood stream )  
no one said it has to be like this  
up against everybody  
all of the time  
you can rally, but can you sustain  
motherfucker you can rally, but can you sustain

dust fire belief in this holy gasoline  
my entire life just a chance to radiate  
a calling to arms of every brother-sister team  
unity burning in desire to avenge  
i like to think of this prayer as a dream  
a sonic mobilizer to entire families  
all of this i am  
all of this i am  
all of this i am

no one said it has to be like this  
up against everybody  
all of the time  
you can rally, but can you sustain  
motherfucker you can rally, but can you sustain  
no one said it has to be like this  
up against everybody  
all of the time  
you can rally, but can you sustain  
motherfucker you can rally...
