

# Adagio, Vamphyri

I hear you  
I feel you  
Smell the fear coming near behind you  
I'll charm you  
Animate you  
A new crown of dawn forever  
Bring me fire  
Bring me darkness  
Do not fight just succumb to my rite  
Messing the dead upon my lands  
To the shadows  
Of the night side  
Dancing for death and she's my bride  
I seek you  
I've found you  
Here me scream, never hope anymore  
I am life  
I am death  
Balancing fire and ice  
Beneath the time i drain your life  
Hypocrit  
Just a liar  
I'm your pain  
To the shadows  
From the night side  
I offer this life with pride  
To the shadows  
From the night side  
Gather yourself before my name
