

Adam And The Ants, Room At The Top

Once is never enough
Never is and never was aha
Here and now is all that counts
Here and now in large amounts, aha
Be beautiful but shut up
The going can be real tough

You can keep your fancy bars
Clubby friends and fast cars, aha
And when the going gets hard
You can eat your credit cards, aha
I really tried to fight it
But what the hell i like it, aha

oooh oooh oooooh yeh yeh

There is always room at the top
dont let them tell you that there is not
Made in England born and bred
An eighteenth centery brain
In the twentyfirst century

If some of this fits some of you
Or like the things that you might do, aha
Well it's the pleasure and the pain
That makes us do it all again ,aha
They say
Be beautiful but shut up
The going can be real tough, aha

oooh oooh oooooh yeh yeh

There is always room at the top
Dont let them tell you that there is not
Made in England born and bred
An eighteenth centry brain
In the twentyfirst centry

Room at the top -- eighteenth century
Room at the top -- eighteenth century
Room at the top
There's always room
oooh oooh
Room at the top-- eighteenth centry
Room at the top-- eighteenth centry
Room at the top
There's always room
heh heh heh hey

ooooh oooh oooh yeh yeh
There is always room at the top
Dont let them tell you that there is not
Made in England born and bred
An eighteenth centry brain

There is always room at the top
Dont let them tell you that there is not
Made in England born and bred
An eighteenth centry brain

There is always room at the top
Dont let them tell you that there is not
Made in England born and bred
An eighteenth centry brain

There is always room at the top
Dont let them tell you that there is not
Made in England born and bred
An eighteenth centry brain
