

Adam And The Ants, Sexatise You

It's friday night, the lights are low
We're looking for a place to go
With the play nearly right
All night, every night
Honey (dondo dondo)
Then a voice in the distance grab a hold of you (who)
Whispers boy I'm gonna sexatise you
Don't ever let your private life, get in the way of your sexy life
She said, don't ever let your private life, get in the way of your sexy life
Well in paris, tx or paris, france down in the alley still taking a chance
Home of pleasures, live life in a day if I had my time over I'd do it all again
Sing (dondo)
Toping my body with a close of you
Step over hear I'm gonna sexatise you

Don't ever let your private life, get in the way of your sexy life
She said, don't ever let your private life, get in the way of your sexy life
Turn up the powers that power
And ride it right on through
I'm polishing my pretty dolls up I'm gonna sexatise you
Turn up the powers that power
And ride it right on through
I'm polishing my pretty dolls up I'm gonna sexatise you
Well there is no such thing as good or bad
Was the experience the best you ever had
Just want to throw it right on your fire
And just like sly, "i wanted to get higher"
She said, don't ever let your private life, get in the way of your sexy life
