

Adam Ant, Beautiful Dream

She was a kissing my back and my neck and my face i was a
looking around for the perfect place
Lay down aside and find me peace
This is a time to make me please
With these girls that I've never seen
I look at you and I think it's a dream
I love your voice and your sexy body
Let's go deep inside into the love stream
It's like a picture in a gallery
Her legs were long and slim and she'd talk to me
Wide at the front and wide at the back
Her hips were curved only her stomach was flat
And i keep 600 and 19
Everything one woman can be
(chorus)
Push push because i like it like that
Push push and then she pushed back said
Don't stop it's never felt better
I think I'd like to carry on forever
Beautiful dream more than a dream
In fact in love stream, love power
It was a
Beautiful dream more than a dream
In fact in love stream, love power
Love and hate will never be friends
This is a love I don't want to end
I'll be your friend I'll be more than your friend
This is a love that I must defend
Slow slow and it grows it grows
Fast fast and it lasted it lasted
On top top til you jump right off
Underneath don't stop don't stop
On this time to change position
We gotta make a big decision
Oh I've already did this once before
lets get off the bed and down to the floor
(chorus)
It was (Push) motion, Love devotion
Sex is emotion, in motion
I think I'd like to carry on forever
This is a dream who's time has come
Remember me It'll be only once to
take you down to these special places
Let me touch your mouth let me kiss your face
one and a one and one makes two
so put together life's dream as two
We looked at love to make something new
darling darling it's all you
it's such a search and my number defers
Sex keeps away from the HIV's
say so find the lock if you got the key
Sex made you and sex made me
So let's turn it up, let's turn it down
It's better at the second time around
(chorus)
It was a Beautiful dream more than a dream
In fact in love stream, love power
Fades away
