

# Adam Brand, Food Water Shelter Love

Every night before I go to sleep  
I thank the lord down on my knees  
For the bare necessities  
Food, water, shelter, love

We're so busy judging right from wrong  
Rich and poor, weak and strong  
When all we need our whole life long  
Is food, water, shelter, love

We can soldier on through each day  
If we have a home to keep our family safe  
And if your heart can be warmed by somebody's love  
That's enough

People go hungry struggle to survive  
While we fly New York to London in the blink of an eye  
Why must it be so hard to provide  
Food, water, shelter, love

We can soldier on thru each day  
If we have a home to keep our family safe  
And if your heart can be warmed by somebody's love  
That's enough

Every night before I go to sleep  
I thank the lord down on my knees  
For the bare necessities  
Food, water, shelter, love  
Food, water, shelter, love
