

Adam Brand, Good Friends

good times are worth more then money anyday
thats what i always say
good friend are worths more then money in the bank
thats whats i always say
thats whats i always say

got a letter made me lose heart
gonna have to make a new start
i know whatever happens now

good times are worth more then money anyday
thats what i always say
good friend are worths more then money in the bank
thats whats i always say
thats whats i always say

don't worry friends will chip in
what's owed will be forgiven
i know whatever happens now

worry 'bout tomorrow
ain't gonna change a thing
today

good times are worth more then money anyday
thats what i always say
good friend are worths more then money in the bank
thats whats i always say
thats whats i always say

good times are worth more then money anyday
thats what i always say
good friend are worths more then money in the bank
thats whats i always say

good times are worth more then money anyday
thats what i always say
good friend are worths more then money in the bank
thats whats i always say
thats whats i always say
