Adam Brand, Just Drive

Got any plans for the weekend Cause I've got an idea Lets do something we ain't done in a couple years Lets roll out on the highway and we'll wave the world goodbye Well come on baby how bout we just drive

Just drive and get away Just drive and run away Cause I love you right beside me And the way it makes me feel When I've got one hand on your leg And one hand on the wheel And we just drive

Well pack a bag with some simple things Cause you won't need much Just a pair of faded jeans I love it when you wear that stuff You can let you hair down We can loose all track of time Come on baby how bout we just drive

Let's just disappear together And leave it all behind
