

# Adam Brand, New England Highway

I've travelled across the country  
On every beaten track  
From the sugar cane to the Nullabor Plain  
And I've been to Burke and back  
But there's nothing I like better  
Just before Australia Day  
Than heading down the New England Highway

Got my boots on, got my hat on  
Got my old guitar and a new song  
For a week I'll be where I belong  
With the big stars, Golden Guitars  
Dream will be ours some day  
Cruising the New England Highway

They'll be busking down on Peel Street  
Looking for a lucky break  
There's the chook man and the one man band  
And Slim Dusty's in the Cavalcade  
There's nothing I like better  
Just before Australia Day  
Than heading down the New England Highway
