

# Adam Green, Watching Old Movies

Watching old movies in the evening time  
How come the sun gone down  
How you gonna leave me when the morning comes  
Stay if I accept you now

Seen so many vultures  
Split so many pieces  
Down the line

Some boys like to go and get married  
Some girl you know she'd love to get high, boy  
When I had to go weak with no love 'tween the sheets  
Oh, man, we had an awful fight

Watching old movies in the evening time  
Get down grooving when the moonlight shines  
That'll teach a woman not to get too bold  
Hauling around with a faceless Johnny  
Johnny please,  
Johnny please,  
Listen to me boy

Sometimes she did not show  
And you have to walk around like this  
Nothing wrong  
Then I got the word to go

Mama

Watching old movies in the evening time  
Vacuuming, lost inside a house of chimes  
Oh, there's no easy way out from here, no  
There's no easy way out from here, babe
