

# Adam Gregory, Don't Look The Other Way

I remember Dad and I  
Stopped the car one rainy night  
To help a stranger fix a flat  
And get on his way  
And I said Daddy do you know that man  
Was he one of your friends  
And he just smiled Said let me help you understand  
So don't look the other way  
When you can help someone in need  
The good Lord gave you eyes  
Don't pretend that you can't see  
That might be you someday  
So don't look the other way  
Thru the wind and pouring rain  
As we drove away  
My Dad he sat there soaking wet  
With a smile on his face  
And I knew  
Though I was just a kid I'd always remember what he did  
When raindrops fell His words would fill my mind again  
So don't look the other way  
When you can help someone in need  
The good Lord gave you eyes  
Don't pretend that you can't see  
That might be you someday  
So don't look the other way  
And now many years have come and gone Daddy's barely hanging on  
If I turn my back I won't have to see it end like that  
But I don't look the other way  
When I can help someone in need  
The good Lord gave me eyes for a reason  
Now I see  
That might be me someday I won't look  
The other way
