

Adam Gregory, What It Takes

What makes you hurt, what makes you smile
what calms your nerves
What drives you wild
I wanna know, I wanna understand
What it takes to be your man
Whats your favorite color
Whats your favorite song
If I sing it to you, would you sing along
I need to know, I got to understand
What it takes to be your man

Chorus

What you want, what you need
Baby tell me everything
There ant nothing I don't wanna know
all I want, all I need is just you here with me
Baby let me know so that I can
Do what it takes to be your man
What makes you cuss, when do you pray
is your daddy your hero
What would your momma say
but I need to know
I need to understand
What it takes to be your man

Chorus

What you want, what you need
Baby tell me everything
There ant nothing I don't wanna know
Cause all I want, all I need is just you here with me
Baby let me know so that I can
Do what it takes to be your man
What you want, what you need
Baby tell me everything
There ant nothing I don't wanna know
Cause all I want, all I need is just you here with me
Baby let me know so that I can
Do what it takes to be your man
What it takes to be your man
