The BNF has twenty thousand different drugs to take,  
So we thought, "What could we produce to give you all a break?"  
A drug that could treat anything from leprosy to SARS,  
And you can give it in the mouth, IV or up the arse.

It's Paracetomoxylfrusebendroneomycin,  
Paracetomoxylfrusebendroneomycin,  
It can cure the common cold and being struck by lightning.  
Paracetomoxylfrusebendroneomycin!

We tested it on animals and none of them survived,  
But that's OK cos when we wrote the paper up we lied.  
It first choice for MI, MS and even for ME and COPD, HIV, PD and DVT

Paracetomoxylfrusebendroneomycin,  
Paracetomoxylfrusebendroneomycin,  
It reverses impotence and makes you good at fighting,  
Paracetomoxylfrusebendroneomycin!

There are some minor side effects and some are not that rare,  
Like nausea, vomiting and losing all your hair,  
And heart attacks, becoming gay and growing extra breasts,  
But it's f\*\*king cheap, and hey, this is the NHS.

Paracetomoxylfrusebendroneomycin,  
Paracetomoxylfrusebendroneomycin,  
There are cures for everything from AIDS to pubic lice in  
Paracetomoxylfrusebendroneomycin!
