

Adam Pascal, Undiscovered

Lonely as she's become
Don't regret what she's done
It's worth all the pain
With a smile on her face, and a love in her heart
She always sings

Says, I am...then whispers the word "undiscovered"
Says, I can...open your eyes

Angel wandered too far from grace, but she saved the sinners in song
How far will you let me go before faith is lost in the dark?
Twist her words and believe
What you need you'll receive
Never be the same

Take from her what you will
Leave her empty and still
She always sings
