

# Adam Rickitt, Good Times

Have a good time (x4)  
Everyday you call me  
Forever asking if Im fine  
I understand your worries  
Because were on each others minds  
But when tomorrow comes, Ill be up with the sun  
Then I know youre coming home to me baby  
And theres no doubt, well be steppin out  
Girl let me remind you of the good times

Chorus:

Were gonna party all night  
Till the break of the light  
Now is the time to celebrate our survival  
And when we start to unwind  
Making loves on my mind  
Together we will celebrate our revival  
Have a good time (x3)

Good times

Have a good time  
All those weeks I never wondered  
Were we wasting time  
No doubt inside, girl I confide  
Too much love is on the line  
So get real close, let the love engross  
And say your gonna stay with me baby  
Cos theres no doubt well be steppin out  
Girl let me remind you of the good times

Chorus:

Were gonna party all night  
Till the break of the light  
Now is the time to celebrate our survival  
And when we start to unwind  
Making loves on my mind  
Together we will celebrate our revival  
Have a good time (x3)

Good times

Good times, good times, good times

Have a good time

So get real close, let the love engross  
And say your gonna stay with me baby  
Cos theres no doubt well be steppin out  
Girl let me remind you of the good times  
Chorus to fade
