

# Adam Rickitt, Touch Me

I want you near me  
I need to feel you by my side  
When we're together  
You bring my fantasies alive  
I'm alive  
You're alive  
We're alive

Chorus:

Come on and touch me, you're all that I need  
Come on and touch me, believe and be free  
You've got this power to hold me  
You've got the strength to control me  
I'll follow you if you show me  
You've got the heart to console me  
You've got this power to hold me  
You've got the strength to control me  
I'll follow you if you show me  
You've got the heart to console me  
I feel your body  
I feel you tremble deep inside  
It's like an addiction  
I need you close to keep alive

I'm alive  
You're alive  
We're alive

Chorus:

Come on and touch me, you're all that I need  
Come on and touch me, believe and be free  
You've got this power to hold me  
You've got the strength to control me  
I'll follow you if you show me  
You've got the heart to console me  
You've got this power to hold me  
You've got the strength to control me  
I'll follow you if you show me  
You've got the heart to console me

Chorus:

Come on and touch me, you're all that I need  
Come on and touch me, believe and be free
