

Adam & The Ants, Family Of Noise

A lot of people in this great big world
Say "love everybody"
A lot of people busy busy busy busy
Being very modern

The family of noise is here
And it's come to save everybody
The family of noise is here
And it's come to save you and me
It goes:

The family of noise is here
And it's come to save everybody
The family of noise is here
And it's come to save you and me

A lot of people in the ancient world
They loved only quiet
And then along came the machine
And a new direction

The family of noise is here
And it's come to save everybody
The family of noise is here
And it's come to save you and me
It goes:

Family of noise
Family of noise
The family of noise

She loves you yeah yeah yeah
She loves you and the family of noise
She loves you yeah yeah yeah
She loves you and the family of noise
She loves you yeah yeah yeah
She loves you and the family of noise
She loves you yeah yeah yeah
She loves you and the family of noise
And the family of noise

In the morning
Last thing at night
In the darkness
Standing in the light

A lot of people in this great big world
Just searching for the pure sound
They're just looking to the machine
They don't listen to the noise

The family of noise is here
And it's come to save everybody
The family of noise is here
And it's come to save you and me
It goes:
In Croydon
