

# Adam Watts, I Would Choose You

If i could turn this wasteland into gold  
If i could journey happily from young to old  
I&#039;d smash a thousand dreams i may have had  
I&#039;d give up all material things and i&#039;d be glad

If i could only make one choice

I would choose You

If i could give the heartless a little soul  
If i could set a spark beneath lovers gone cold  
I&#039;d tear at the seams with all i have  
Surrender all my wants, my needs and i&#039;d be glad

If i could only make one choice

I would choose You  
I see the world, take what i need  
Use it all, lose the rest  
To be a fool is to put it all  
Above the One you know is love  
I would not make that mistake

I would choose You
