

# Adamantium, Defeat The Purpose

From the depths of depression subsiding below  
To the center of your pain as all hatred grows  
You swear to avenge  
Destroy self control  
Ideas self destruct  
Your warmth turns cold  
Revenge so sweet  
Kill this beast  
I lost respect for your beliefs  
Your solution is no solution  
I am this beast  
You say you're blind  
You see  
You can't believe reality  
Corrupt regenerate disease  
Lost in ignorance  
Their pain is seen  
Revenge they'll pay  
You're as guilty as they.
