

Adamantium, Fuck You

Now face me
Not a word to say
Now feel me scream this wall of hate
I loved this friend
But you lied
You fucking pretend
It tortures me
Insanity
That we must face
Life loses taste
My disrespect and my pain inside my chest
Inside of me wanted your love
You gave me hate
Fuck you
Never will I trust you again
Never will I love you again
It's hard for me and you'll never see
Just what it meant and what to believe.
