

Adams Ryan, Gonna Make You Love Me

Adams Ryan

Gold

Gonna Make You Love Me

Riot on the streets, the touch beneath the sheets

It's only gonna make me love you more

The cops they got the guns, the night destroys the sun

It's only gonna make me love you more

This old world, well, it was mine to take

Faith can keep you warm, but I'll teach you how to shake

And I'll come to you like a little girl

It's only gonna make me love you more

Moonlight on the beach, sweet amphetamines

It's only gonna make you love me more

Bottles and the cans, the idiots go dance

It's only gonna make me love you more

This old world, well, it was mine to take

Faith can keep you warm, but I'll teach you how to shake

And I'll come to you like a little girl

It's only gonna make me love you more

They say love is hell,

But I've only been laughin' ever since I fell

It's only gonna make me love you more

The lord will have his way but I'm just a call away

It's only gonna make you love me more

This old world, well, it was mine to take

Faith can keep you warm, but I'll teach you how to shake

And I'll come to you like a little girl

It's only gonna make me love you more
