

Adanna Duru, POP!

i don't really know what you tryna do
got the top down goin bout a hundred and two
u liking what you see and baby id have to agree
i'm looking way too damn sexy tonight

not a beauty in the world you ever seen like this
tell me do you wanna watch me move my waist like this
got the sweat drippin off of my chest like this
make it bounce & a jump & a rock like this
your nigga wont leave me alone
i really dont want him i dont
Kitty on your face call it facetime
watch me move my waist

He like it when i pop pop
He go like me when i pop pop

honey shit is gettin crazy
for real you know this night has been amazing
got a feeling that its lit tonight
cause baby ima hop up on that dick tonight

what can you make my body say?
my hips are only giving honesty
need you to get on top of me
we at the party of the century
i'm gonna take your last name
other relationships are put to shame
i'm gonna rock you all the way
honey i needed you like yesterday

not a beauty in the world you ever seen like this
tell me do you wanna watch me move my waist like this
got the sweat drippin off of my chest like this
make it bounce & a jump & a rock like this
my baby is taking me home
no way i am sleeping alone
Kitty on your face call it facetime
watch me move my waist

He like it when i pop pop pop
He like it when i pop pop pop
